In the ERASMUS + project INTRuST (INnovative TRaining Solutions for certified wood in furniture, timber, building and foreSTry sectors) we have developed an exciting e-learning offer. We are looking forward to the participation of teachers and learners e.g., at vocational schools, universities and further education institutions.

We are looking for interested participants for our first course run! The course covers the topic of wood and forest certifications in the application fields of wood, forestry, furniture and related sectors. The 6 training modules are available in English and are as follows:

Sustainability in the forest-wood value chain

Introduction to Industry 4.0

EU regulatory landscape on Digital and Green transition

Sustainable certifications for the forest-wood value chain

Key enabling technologies for the forest-wood value chain supporting green transition

Closing the loop in the wood sector
